THANK YOU for contributing to solutions...

Your donations to Change for Children support grassroots projects in developing countries that offer solutions to many challenges caused by extreme poverty. The contributions made by individuals, government, organizations, partners, and volunteers result in positive change!

Help the reach of Change for Children continue to grow!
- Tell one new person about Change for Children this year.
- Share with us how you became involved with Change for Children and what motivates you to support our projects.
- Consider volunteering, becoming a monthly donor, or increasing your giving this year.

Thank you!

ANNUAL REPORT 2014

WORKING IN PARTNERSHIP WITH PEOPLE AROUND THE WORLD TO BUILD CAPACITY AND TRANSFORM UNJUST STRUCTURES: TOGETHER, WE EMPOWER COMMUNITY.
Message from our Executive Director

INSPIRING is the word I always use to describe both our partner organizations overseas and our donors in Canada. The resilience of our partners combined with the generosity of our donors has allowed us to do more with less. We executed a number of small projects this year reaching some of the most remote communities in the developing world, helping to deliver basic services that improved quality of life and instilled hope for the future. THANK YOU FOR YOUR SUPPORT. Without you, there can be no CHANGE FOR CHILDREN.

Working in PARTNERSHIP...

In northwestern Nicaragua this year, ten communities gained access to potable water. New local Water Committees were empowered to organize and assume responsibility for maintaining access to the valuable resource for the nearly 15,000 people whose quality of life has been improved.

Working together with the support of local government, six Moseten indigenous women’s federations in Alto Beni, Bolivia, established a nutritious lunch program, providing locally-sourced, locally-processed foods for over 2,000 students.

The world is a little more collaborative.

with people around THE WORLD...

This year, CFCA was actively engaged in 25 sustainable development projects with 15 partner organizations in Latin America and Africa.

International guests from Uganda toured Alberta schools and reached over 2,600 students with a message of global community.

Over 100 Canadians participated in brigades to Nicaragua and Bolivia.

The world is a little smaller.

to build CAPACITY...

In southwestern Uganda, access to healthcare increased with the construction of a Maternal & Child Hospital, allowing women to receive ante-natal, natal and post-natal services.

Eight schools, built by CFCA in the past ten years, continue to afford the opportunity for an education to students in marginalized communities in Nicaragua and Guatemala who would otherwise not receive one. This year, three schools in the BOSAWAS were equipped with much-needed desks.

The world is a little stronger.

and TRANSFORM unjust structures...

CFCA helped to increase food sovereignty in the highlands of Guatemala by strengthening agricultural training programs and supporting seed distribution and diversification initiatives.

Support for the Eco-Stoves project helped create healthier spaces for families in the BOSAWAS.

By eliminating toxic smoke from homes and reducing the amount of fuel required, families now have a little more room to breathe.

The world is a little more equitable.
